

Mark 2 TSI

HEEL SEAT AND SIDES LASTING MACHINES

New generation of heel seat and side lasting machine, for a constant precision and rapidity of execution, with hydraulic functioning with some pneumatic movements, with on screen programming of the insole profile, from the heel to the ball and simultaneous positioning of the side lasting.

PINCHERS

Two pincers group, at the side of the last, for the pre-tensioning of the upper. Automatic pulling and independent manual correction.

CEMENT DISTRIBUTION

The injection of the thermocement on the shoe's insole, guarantees a precise distribution within the working area.

ERGONOMIC SETTINGS

Color LCD with touchscreen, which makes the programming of the working cycles simple and intuitive.

REMOTE ASSISTANCE

Possibility of remote assistance by PC, for a quick and immediate technical support.
